

The interpretation

- 1 **The forest** = how you see your life at the moment, e.g. the darker and scarier the forest is, the more negative you feel about life right now.
- 2 **The house** = how you see yourself, e.g. the lighter the house, the more optimistic and positive your personality. The number of bedrooms = the number of people you want close to you in your life. No fence = open-minded and extrovert.
- 3 **The bear** = your attitude to love and relationships. The smaller and friendlier the bear, the more affectionate you are, and the more positive you feel about love. Running away from the bear = you are frightened of commitment.
- 4 **The garden** = how you see your country at the moment. The more cultivated and bright the garden, the more positive your view about your country.
- 5 **The wall** = the way you see the afterlife (i.e. life after death). If you hear happy voices singing behind the wall, you have an optimistic view of the afterlife.
